

## WITH OUR YOUTH AWARDS

**Watertown Area Retired Teachers Association** – Our members encourage and support the young people in our community with our time and donations. We make a concerted effort to let the current classroom teachers know that we support them. During the past year, we provided homemade goodies for every teacher and staff member (over 400 people) to thank them for their dedication.

They stated that their members are very sensitive to the needs of the children, teachers and people in their area. AND they are quick to respond to those needs with their time and their financial support.

**Black Hills Retired Teachers** – The Keystone Living History Classroom is maintained by their members. The retired teachers present the lessons about the pioneer ways of living. After two hours of classes, the class strolls about old Keystone with an historian as their guide.

They noted that both youth and adults who participate in this project learn history by experiencing it. Students are touched with a love of learning and adults rekindle their fire for learning.
